PROFILE

Game Developer with 3 years of experience specializing in Unity. While serving National Service, I made various small projects and participated in several game jams, ensuring that I was keeping up with the technology. I also self-studied Web Development, mainly to build my custom portfolio website and showcase the projects I've done.

WORK EXPERIENCE

Intern Game Programmer

NTU Wee Kim Wee School of Communication and Information   Mar 21 - May 21

- Built a multiplayer educational card game for construction workers, with smooth animations.
- Completed all the features early, having extra time near the end to help my classmate on his project (same company, different project).

PROJECTS

Portfolio Website   30 Jan 2023 - Ongoing

- Has features like filtering projects, smooth transitions and animations and automatic table of contents
- Easy to add future projects (uses markdown, an easy-to-read and write format)
- Very fast to load
- First website built from scratch, with a UI Framework
- Learnt web development and built while serving National Service.

Obsidian Plugin - Auto Embed   24 Mar 2024 - Ongoing

- Embed web pages into Obsidian (Note taking app)
- Redirects the link to the website's embedded version if the website supports it (E.g. X/Twitter, Reddit, TikTok, CodePen, Notion.)
- Made it easy to add more supported websites for redirecting.
- Has over 2000 downloads since publishing
